AS OF 30 JUNE 2018 FOR INSTITUTIONAL AND REGISTERED INVESTMENT ADVISER USE ONLY.

ABOUT DIMENSIONAL*

Dimensional is a leading global investment firm that has been translating academic research into practical investment solutions since 1981. Guided by a strong belief in markets, Dimensional offers strategies that focus on the drivers of expected returns. The firm applies a dynamic implementation process that integrates advanced research, methodical portfolio design, and careful execution, while balancing risks, costs, and other tradeoffs that may impact performance. This approach is applied across a full suite of investment strategies to help meet the needs of investors worldwide.

CUMULATIVE PERFORMANCE

Performance information is not available as the fund is less than 12 months old.

Performance for the fund is reported net of fees. Performance less than one year is not annualised. To obtain performance data current to the most recent month-end, visit dimensional.com. Average annual total returns include reinvestment of dividends and capital gains. The index is not available for direct investment, therefore its performance does not reflect the expenses associated with the management of an actual fund. The index is used for comparative purposes only. Performance data shown represents past performance and is not a guarantee of future results. Current performance may be higher or lower than the performance shown. Performance may increase or decrease as a result of currency fluctuations. The investment return and principal value of an investment may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original value. There is no guarantee strategies will be successful. Diversification neither assures a profit nor guarantees against loss in a declining market.

INVESTMENT OBJECTIVE

The investment objective of the Emerging Markets Large Cap Core Equity Fund is to seek long-term capital appreciation. A fuller statement of the investment policy is available in the prospectus and KIIDs.

PRINCIPAL RISKS

Risks include loss of principal and fluctuating value. Value investing is subject to risk which may cause underperformance compared to other equity investment strategies. Investing outside the country you live may involve special risks such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks. For more detail about the risks related to an investment in the Fund, please see the corresponding KIID and prospectus and in particular "Special Considerations and Risk Factors."
